35TH ANNIVERSARY

**ROCKY MOUNTAIN REGION
REGION 6**

AK, AZ, CO, ID, MT, NV, NM, UT, WY

**FAR WEST REGION
REGION 7**

CA, HI, OR, WA

A MESSAGE TO THE ASC STUDENT COMPETITORS:

The 35th Annual Associated Schools of Construction (ASC) Regions 6 & 7 Student Competition is host to the largest construction management student competition in the nation. This year over 1,400 students competing on 190 teams coming from 56 universities and 22 states are ready to compete. The 17 problem sponsoring companies have worked hard to provide all competing teams with a challenging and educational experience. Whenever possible, take the opportunity to thank them for their efforts and support of the ASC.

The competition aspect of our event must be fair. No student or team should have an unfair advantage. It is expected that your team is prepared, rehearsed, and that you have researched the industry for helpful information. However, in the event that you were professionally involved with or have specific knowledge of the actual problem issued by the sponsor that is beyond “public knowledge”, you must immediately notify your sponsor of a possible conflict of interest. Follow the rules, and remember only six team members can materially participate in the solution of the problem. There are no “runners” or individuals that may assist the team for any reason other than safety issues. For the entire duration of the competition, Thursday and Friday, there must be no contact with anyone that is not a member of your team (alternates, fellow students, industry, faculty, or coaches) until your team has presented. After presenting take time to thank everyone who helped you get to this point and assisted in your achievement.

Every detail of this year’s competition has been planned and organized to be a memorable and rewarding experience. The problem sponsors are ready, teams are ready, and the Nugget is ready to make this year’s competition a great event. Familiarize yourself with the hotel floor plan and locate your problem sponsor’s presentation room, study the event schedule, and do your part to contribute positively to your team’s effort and to the ASC.

You can find the list of times and locations for all of the week’s planned events inside this program. The Welcome Dinner begins at 6:00 p.m. in the Nugget Grand Ballroom. The competition kicks off with the Team Jump Start which begins Thursday morning at 5:00 AM in Nugget Ballroom 1 and ends with a Job Fair and Awards Ceremonies on Saturday.

Be sure to identify and thank, whenever you have the opportunity, all of the sponsors that have generously supported these and the many other events happening this week. The sponsors and job fair participants are the ones that have provided the financial support to help make this event special and have partnered with the ASC to continue to enhance construction education. Your university construction programs have also invested in your success and their commitment to the ASC is reflected in your accomplishments.

Work hard, challenge yourself, and have fun!

Justin Weidman, Region 6 Director
Brigham Young University

Bill Bender, Region 7 Director
University of Washington

When you support the ASC you are supporting our mission:

ASC. The professional association for the development and advancement of construction education, where the sharing of ideas and knowledge inspires, guides, and promotes excellence in curricula, teaching, research, and service.

ASC EVENT SAFETY PROTOCOLS

ASC considers the safety of everyone on-site as our top priority.
We are implementing these safety protocols to ensure the health and well-being of our attendees and staff.
We ask everyone to join us so we may have a healthy event and keep each other safe.

EVENT EXPECTATIONS

WHAT TO EXPECT FROM US

WEARING MASKS

We are wearing masks at all indoor events unless we are actively eating/drinking

CLEAN ENVIRONMENT

We are disinfecting touched surfaces for your safety

HAND SANITATION

We are using hand sanitizer and washing our hands frequently

WHAT WE EXPECT FROM YOU

GROUP EVENTS

Face masks are required at all ASC events

HAND SANITATION

We ask that you use hand sanitizer when provided to protect yourself and others around you

VACCINATION OR NEGATIVE TEST

COVID-19 vaccination or negative test result encouraged

WEAR A MASK

Masks are required to be worn at all ASC indoor events unless you are actively eating/drinking

These safety protocols are subject to change based on updated guidance and requirements from federal, state, and local health authorities. Please refer to the team Memorandum of Understanding (MOU) for complete terms and conditions of your participation in the event.

Welcome Dinner Keynote Speaker

Dan Wheeler
**Vice President &
General Manager**

**Turner Construction
Company**

Dan Wheeler is the Vice President and General Manager of Turner Construction Company covering Sacramento, Northern Nevada, and Central Valley regions and oversees Northern California's Self-Perform Operations, providing executive oversight of approximately \$300 million of annual work in place and exceeding trade partner diversity goals. Dan leads more than 140 full-time employees and 110 carpenters and laborers, and raises over \$100,000 annually in charitable donations.

He serves as the President of the Industrial Advisory Committee for the CSU Chico Construction Management Department and a Board of Trustee of the Construction Industry Education Foundation Board of Trustee. He is a Design-Build Institute of America (DBIA) certified professional, regularly speaking on informational panels, and teaches the Design-Build Done Right educational course.

Dan will talk about how he started in construction and share key stories on how his career was influenced by the opportunities presented to him and people that impacted his career along the way. His focus will highlight the Power of Connecting: How to Leverage Relationships and Technology. His personal stories of success and growth over his 28 years of industry experience including actively caring and cultivating relationships with everyone from a front-line laborer to a CEO; leading during a global pandemic, and aligning success with service will inspire all.

Turner Construction is proudly ranked the #1 Contractor (Building Design + Construction 2021), #1 Green Building Contractor (Engineering News-Record 2021), and a Best Place to Work (Corporate Equality Index, 2021).

Whether you wear work boots and a hard hat, or come to work in one of our offices, what unites us all is the shared belief that we're building something better together.

For current career opportunities visit **graniteconstruction.com**.

We look forward to connecting with students and sharing our vision for the future that we're building together. Please visit our career fair booth to meet our team.

Faculty Workshops	8:00 AM	11:45 AM	Sierra 5	2nd	
Skanska  Steve Clem SVP of Project Planning and Head of Sustainability Skanska USA Building	8:00 AM	9:45 AM			
Sustainability as Disruption Insurance: Saving the planet and your business or organization Exploring how integrating sustainability across an organization can make it more resilient to future trends and changes. With a case study of how one company's journey from compliance to leadership has made it a destination employer, this presentation will describe how to broaden the description of sustainability, making it accessible to more stakeholders. Sustainability's natural connectivity with innovation will be discussed and show how developing a mindset of "being better" can prepare us for what's around the next corner. Attracting and retaining the best and brightest and getting their engagement has never been more critical, and sustainability plays a key role in the defining challenge of our time.					
Break	9:45 AM	10:00 AM			
Procore  Kevin Molloy Sr. Social Impact Specialist Procore	10:00 AM	10:45 AM	Sierra 5	2nd	Procore
Procore Educational Resources for Faculty Members Students are expected to know how to leverage technology on their projects as they enter their internships and first jobs after graduation. This session will provide an overview of Procore's functionality and our educational resources available to all professors. We will also be focusing on how to leverage student certifications, the ASC Construction Expertise Exchange, Procore's construction job board, and our continuing education courses.					
Break	10:45 AM	11:00 AM			
Bluebeam  Sophie Macks (she/her/hers) Academic Specialist Community Development Bluebeam, Inc.	11:00 AM	11:45 AM	Sierra 5	2nd	Bluebeam
Introduction to Bluebeam Revu for the Classroom Looking to get the most out of Bluebeam Revu in your classroom? This session will provide an overview of Bluebeam Revu, as well as an introduction to using Bluebeam Studio for easier communication and collaboration with your students.

Conference Session Two					
Event	Start	End	Location	Hotel Floor	Sponsor(s)
Faculty Presentations	2:00 PM	4:45 PM	Sierra 5	2nd	ASC
 <p>Tarek Salama Calif. State Univ., Sacramento</p>	<p>2:00 PM - 2:30 PM Financial modeling for modular and offsite construction</p> <p>Advantages of using modular and offsite construction compared with traditional construction methods are numerous due to its efficiency in delivering shorter schedules, lower cost, higher quality, and better safety. However, one of the biggest challenges facing the prefabrication industry today is the inherent difference between financing traditional construction and the upfront capital requirements for modular and offsite construction. Any solution for this problem should introduce better coordination among developers, banks, financial partners, lending institutions, manufacturers, and general contractors. Financing modular construction is challenging as banks are not familiar with the characteristics of this modern industry, and it is all about risk and return. However, few studies in literature focused on the financial modeling for modular and offsite construction. Suggested research will study current practices/challenges concerning financial modeling for modular and offsite construction and it will present a financial model that helps in solving the current shortage of housing in California.</p>				
 <p>Justin Weidman Brigham Young University</p>	<p>2:30 PM - 3:00 PM Using Low Risk Projects to Teach High Value Lessons</p> <p>Experiential learning by using projects in the classroom. Using small scale projects to replicate team dynamics, project information tracking, quality, and self-reflection. Allowing students to go through the process of design, creation and execution of a small scale project allows for many lessons to be taught in a low risk environment where real life situations can be taught. This presentation will discuss using \$5 project budgets to replicate the process of project management for owners, architects and contractors.</p>				
Break	3:00 PM				
 <p>Andrew Mantell, PE Calif. State Univ., Sacramento</p>	<p>3:15 PM - 3:45 PM Drone use in construction management education – from Alpha to Zulu</p> <p>From deciding that a drone might be a great way to bring the job site to your lecture room, there are a myriad of decisions that must be made as well as numerous legal requirements that must be followed. This presentation will discuss the process I undertook to begin development of a drone program at CSUS.</p>

Conference Session Two, Continued					
Event	Start	End	Location	Hotel Floor	Sponsor(s)
TECH Presentations	3:45 PM	4:45 PM	Sierra 5	2nd	ASC
 Rebecca Lehman Social Impact Program Manager DroneDeploy	3:45 PM - 4:15 PM Introduction to DroneDeploy for Education <p>This session will explore how to utilize DroneDeploy's software in the classroom. We will go over educational use capabilities, classroom exercises, teaching materials, as well as our online certification program for students. Drones and ground robotics are engaging educational tools that also save time, resources and improve safety on the job site. Both drones and ground capture tools can easily be adopted in the classroom to bring your projects to life.</p>				
 Kate Callahan Sr. Manager, Client Services & Engagement Green Building Initiative	4:15 PM - 4:45 PM GBI's Green Globes Emerging Professional Credential: Empowering the Next Generation of Sustainability Leaders <p>It is imperative for students and emerging professionals to have access to educational opportunities to expand their understanding of sustainability in the built environment. The Green Building Initiative (GBI) administers Green Globes building certification and offers the Green Globes Emerging Professional (GGEP) credential. This credential is designed for college students pursuing a design, engineering, construction management, and/or sustainability degree, or those early in their careers in the A/E/C and/or sustainability industries. The training includes topics such as the importance of green building, an introduction to GBI and the Green Globes certification system, and key sustainability concepts.</p> <p>GBI serves as a resource for identifying and promoting emerging sustainable building trends, educational opportunities, and provides development tools for emerging professionals in the green building industry.</p>

Evening Host

David Shedd

Chief Operating Officer
The Raymond Group

David Shedd is the Chief Operating Officer at The Raymond Group and takes responsibility for overseeing all estimating, sales, and project management activities across the company's four regions. David has over 18 years of experience in the construction, building materials manufacturing, and industrial distribution industries, where he has held executive leadership positions. David graduated from Williams College with a bachelor's degree in Mathematics and earned his M.B.A. from the University of Pennsylvania's The Wharton School, graduating with distinction. David has published two books; *Build a Better B2B Business* and *110% Success*, and he blogs monthly on business leadership at www.moveyourcompanyforward.com.

David brings a dedication to safety, quality, workplace culture, and a simplistic business management approach to The Raymond Group operations. David's expertise goes on to include lean production, business development, marketing and advertisement, and strategic planning.

Keynote Speakers

Lauren Nunnally

SVP, Chief Talent
Officer, Craft Services
Swinerton

Talent First: Swinerton's Focus on Professional Development, Life-Long Learning and Succession Planning

Swinerton Builders has been a 100% employee-owned company for more than 30 years. Swinerton wants employee-owners who embrace lifelong learning because it is associated with a continuous improvement attitude. That is the attitude that brings repeat clients. It doesn't matter if Swinerton is hiring someone in the trades, a college graduate, or someone who has been working for another company. If that person embraces an "ongoing, voluntary, and self-motivated pursuit of knowledge", the odds are they will be successful. If a Swinerton employee chooses to leave the company, Swinerton wants them to be successful in their new job. That approach, that attitude, raises the bar for the entire construction industry. The presentation introduces Swinerton's Talent First team and the focus on providing in-house professional development for all employee-owners.

Lauren Nunnally is a Senior Vice President at Swinerton with 16 years of construction experience. She received her bachelor's and master's degrees in Civil Engineering from the University of Virginia and her MBA from the The Wharton School at the University of Pennsylvania. Lauren started with Swinerton in 2005 as a Project Engineer and remained in core operations for eight years, rising quickly to Project Manager and gaining experience in numerous markets. After completing her MBA, Lauren returned to Swinerton as a Director in the Business Technology department, working to reorganize and focus IT on the business of construction. With a passion for culture, talent acquisition, leadership development, succession planning, and the employee experience, Lauren works to align talent strategies to Swinerton's global business objectives and deliver tangible performance results.

David Gunderson

Craft Services Business
Partner
Swinerton

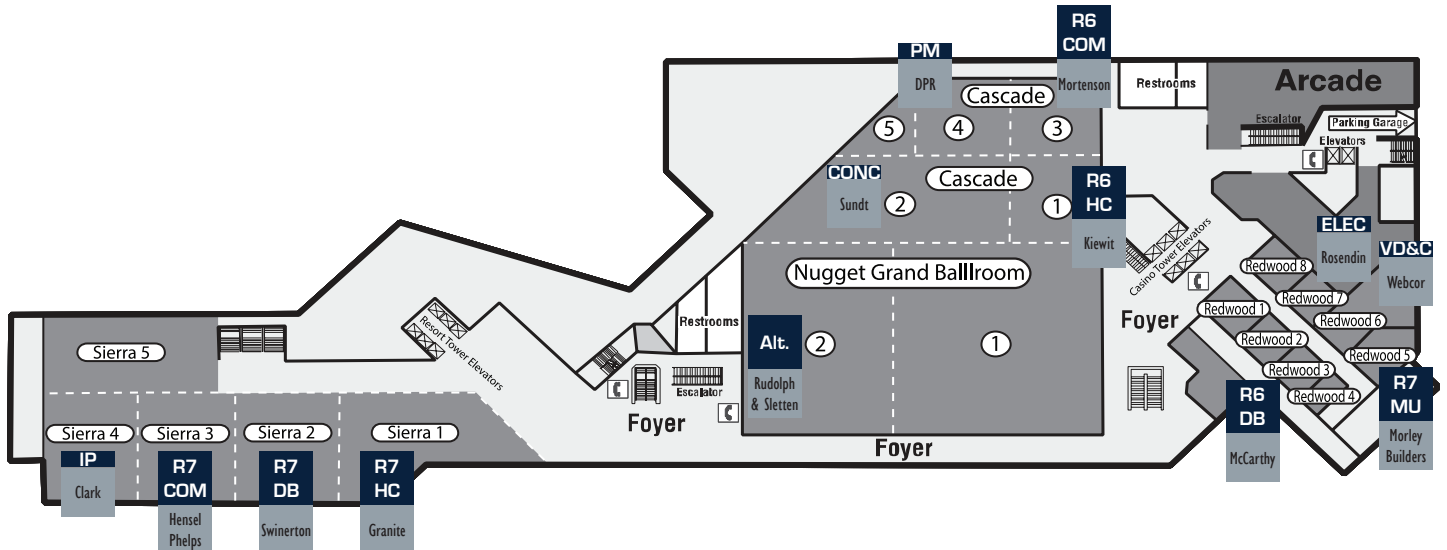

David Gunderson is a Craft Services Business Partner, currently spending a lot of time developing curricula for Swinerton's Foreman Development Series. After more than 30 years of primarily commercial construction experience, David took that experience into the postsecondary construction management classroom teaching at Colorado State University for 3½ years and then at Washington State University for 15 years. David retired from WSU, fully intending to spend more time with family, but Swinerton made David an offer that allowed him to draw upon all aspects of his 49-year career: 10 years in the trades, 20 years in superintendence and project management, and 18+ years in academia. One of David's primary research interests has been superintendent competencies and attributes required for success.

About The Raymond Group: Raymond was ranked 2nd nationally in the Wall and Ceiling Industry in 2021 by Engineering News Record (ENR) and has recently completed high profile projects such as SoFi Stadium in Inglewood and Resorts World in Las Vegas. Raymond stays at the forefront of technology and helps streamline field operations by utilizing their in-house Virtual Design and Construction Department (VDC) that specializes in Building Information Modeling (BIM), as well as offering extensive prefabrication techniques for building components and exterior wall systems.

Nugget Grand Ballroom

8:00 AM - 12:00 PM

Be part of our mission to empower people to imagine, plan, build and operate high-quality, complex projects

TO BEGIN YOUR JOURNEY WITH SHIMMICK, FOLLOW THESE STEPS:

VISIT: <https://careers-shimmick.icims.com/>

ENTER: What (e.g. job title) or Where (city, state) and click 'Search' to view Shimmick's open roles.

CLICK on the job(s) that appeal to you and 'Apply for this job Online'

This will take you to Shimmick's Gateway (iCIMS) where you will be prompted to enter your email address and subsequently create your Candidate Profile.

After you create your Candidate Profile, you will be prompted to answer Candidate Questions, EEO, person and Job Specific Questions before submitting or fully applying to a job.
