# A MESSAGE TO THE ASC STUDENT COMPETITORS:

The 38th Annual Associated Schools of Construction (ASC) Regions 6 & 7 Student Competition is host to the largest construction management student competition in the nation. This year over 1,800 students competing on 241 teams coming from 57 universities and 21 states are ready to compete. The 18 problem sponsoring companies have worked hard to provide all competing teams with a challenging and educational experience. Whenever possible, take the opportunity to thank them for their efforts and support of the ASC.

The competition aspect of our event must be fair. No student or team should have an unfair advantage. It is expected that your team is prepared, rehearsed, and that you have researched the industry for helpful information. However, in the event that you were professionally involved with or have specific knowledge of the actual problem issued by the sponsor that is beyond “public knowledge”, you must immediately notify your sponsor of a possible conflict of interest. Follow the rules, and remember only six team members can materially participate in the solution of the problem. There are no “runners” or individuals that may assist the team for any reason other than safety issues. For the entire duration of the competition, Thursday and Friday, there must be no contact with anyone that is not a member of your team (alternates, fellow students, industry, faculty, or coaches) until your team has presented. After presenting take time to thank everyone who helped you get to this point and assisted in your achievement.

Every detail of this year’s competition has been planned and organized to be a memorable and rewarding experience. The problem sponsors are ready, teams are ready, and the Nugget is ready to make this year’s competition a great event. Familiarize yourself with the hotel floor plan and locate your problem sponsor’s presentation room, study the event schedule, and do your part to contribute positively to your team’s effort and to the ASC.

You can find the list of times and locations for all of the week’s planned events inside this program. The Welcome Dinner begins at 6:00 p.m. in the Nugget Grand Ballroom. The competition kicks off with the Team Jump Start which begins Thursday morning at 5:00 AM in Nugget 1 and ends with a Job Fair and Awards Ceremonies on Saturday.

Be sure to identify and thank, whenever you have the opportunity, all of the sponsors that have generously supported these and the many other events happening this week. The sponsors and job fair participants are the ones that have provided the financial support to help make this event special and have partnered with the ASC to continue to enhance construction education. Your university construction programs have also invested in your success and their commitment to the ASC is reflected in your accomplishments.

Work hard, challenge yourself, and have fun!

## Competition Code of Conduct

August 18, 2023

The ASC Regions 6 & 7 Student Competition is dedicated to fostering an environment of honesty, integrity, respect, and mutual responsibility for all participants, including students, faculty, industry representatives, and venue staff. Harassment or misconduct of any kind will not be tolerated.

### Participant Expectations:

- Treat everyone with respect and consideration.
- Avoid demeaning, discriminatory, or harassing behavior and speech.
- Stay aware of your surroundings and report concerns to competition leadership.

### Prohibited Behaviors:

- Sexual harassment or inappropriate physical contact.
- Discrimination based on race, gender, age, religion, or other personal characteristics.
- Abuse of power or position.

### Reporting Violations:

If you witness or experience a violation, report it to the Competition Manager (labrown2@csuchico.edu). All reports will be handled with discretion and confidentiality.

### ASC's Commitment:

ASC will investigate incidents thoroughly and reserves the right to remove violators from the competition.

This Code of Conduct ensures a safe, respectful, and productive competition environment.

### Acknowledgments

The ASC Regions 6 & 7 Student Competition and Construction Management Conference would not be possible without the dedication and support of many individuals and organizations.

We would like to extend our deepest appreciation to our problem sponsors for their continued commitment to fostering the development of future construction management professionals. Your invaluable contributions of time, expertise, and resources help make this event an unparalleled educational experience for students across the country.

A special thanks to the faculty coaches and university staff for their dedication in preparing students to succeed, both in this competition and in their future careers. We would also like to recognize and thank the ASC Regions 6 & 7 Directors, the Competition Manager, and all staff and volunteers who work tirelessly behind the scenes to organize and execute this event. Your hard work and commitment are essential to the success of this competition.

Finally, we are grateful to the student participants for their enthusiasm, professionalism, and hard work. This competition exists to challenge and inspire you, and your continued involvement and dedication are what make this event thrive year after year.

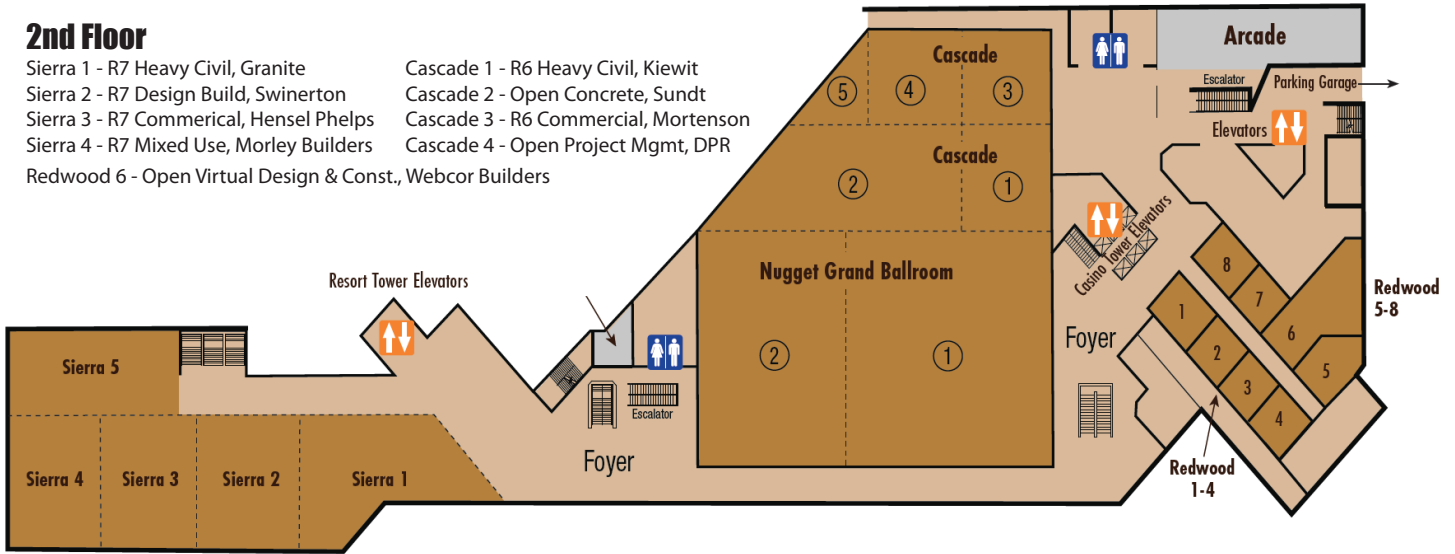

Thank you to everyone who has contributed to making the 2025 ASC Regions 6 & 7 Student Competition a success!

### Excellence Through Innovation

In the rapidly evolving industry landscape, innovation is the key to thriving and creating value. Granite will cover the four types of innovation: Incremental, Breakthrough, Disruptive, and Transformative. We'll delve into how individuals and organizations can foster innovation through new perspectives, experiences, open-mindedness, and a process-focused approach. Attendees will gain insights into the importance of data literacy, strategic alignment, and a willingness to fail as they navigate and excel in the industry.

### Life and Career

Aaron McClellan is a seasoned professional with over 18 years of experience in leading diverse teams to achieve highly restricted objectives with humble, focused, and innovative leadership.

As the Construction Technology Manager at Granite Construction Company, he is responsible for the discovery, refinement, and strategic deployment of emerging technologies to enhance operational effectiveness and efficiency. Aaron's military experience as a Green Beret has honed his leadership skills and strategic thinking, enabling him to tackle complex problems with innovative solutions. His expertise lies in strategic planning, spearheading construction technology (ConTech) innovations, and fostering a culture of safety and efficiency in operations. Aaron's experience provides a deep understanding of the challenges and opportunities for ConTech, ranging from idea generation for new products to the practical considerations and viability of piloting new technologies.

Aaron is a visionary leader whose military background and passion for innovation drive his pursuit of excellence in the construction industry. Aaron's contributions to the field are not only valuable but also inspire others to think creatively and push the boundaries of what's possible.

A group of seven Granite Construction employees, four men and three women, standing in a line on a construction site. They are all wearing white hard hats with the Granite logo, high-visibility yellow safety vests over dark jackets, and khaki pants. In the background, there is a large construction site with a crane and mountains under a cloudy sky.

**GRANITE®**  
**It starts with you.**  
Whether you wear work boots and a hard hat, or come to work in one of our offices,  
what unites us all is the shared belief that we're building something better together.

### Evening Host

#### Wes Ayres

Based in Sacramento, California, Wes Ayres manages the West Coast region for Planera. With 10 years of experience in construction technology, Wes began his career at PlanGrid, where he played a pivotal role in transitioning the industry from paper drawings to iPads in the field. Following PlanGrid's acquisition by Autodesk, he was part of the team that introduced Autodesk Construction Cloud (ACC) to the West Coast market.

In 2023, Wes identified Planera as the only platform capable of effectively addressing ongoing challenges in planning and scheduling, leading him to join the team to help bring this innovative technology to market.

#### Visual Scheduling: A Collaborative Approach to Better Project Outcomes

Traditional scheduling tools often fail to bridge the gap between planning and execution, leading to misalignment and inefficiencies. This joint presentation by Planera CEO Nitin Bhandari and construction executive Tom Case will explore how visual scheduling transforms the way projects are planned, communicated, and executed.

Attendees will gain insights into why visual scheduling fosters greater collaboration among teams, enables real-time decision-making, and improves project predictability. Drawing on real-world examples and decades of industry expertise, this presentation will demonstrate how adopting visual scheduling tools can drive better outcomes in both the classroom and the field, preparing the next generation of construction professionals for success.

#### About Nitin Bhandari, CEO and Co-Founder, Planera Inc.

**Nitin Bhandari** is the co-founder and CEO of Planera, where he is democratizing Construction CPM scheduling with a collaborative, visual software solution. By reimagining project planning and management, Planera drives team engagement, fosters alignment, and secures buy-in at all levels, making complex scheduling more intuitive and efficient.

#### About Tom Case, Managing Principal, TCM Services

**Tom Case** has over 30 years of experience in construction operations and currently serves as Managing Principal of TCM Services. Formerly COO at Sundt Construction and Senior VP of Operations at Granite Construction, Tom has a proven track record of leading complex projects and driving operational excellence. As a consultant, he helps owners, contractors, and designers achieve better outcomes through collaboration and innovation. His deep industry knowledge and dedication to teamwork make him a trusted advisor in the construction sector.
